Profile Summary

A highly motivated Computer Science Engineering student with hands-on experience in full-stack web development, software engineering, and DevOps practices. Proficient in the MERN Stack, Java, and SQL. Experienced in using tools like Git, Docker, Linux, Azure PEM, and AWS (EC2, S3) for development and deployment processes. Known for quick learning, problem-solving, and effective team collaboration. Seeking opportunities to apply technical knowledge in innovative, real-world projects.

Education

Sagar Institute of Science, Technology & Research, Bhopal (MP)

Bachelor of Technology, Computer Science & Engineering | CGPA: 6.30 | 2022 – 2026.

Excellence Higher Secondary School, Chhindwara
Higher Secondary (Class 12), State Board | 65%.
Secondary (Class 10), State Board | 86.25%.

Key Technical Skills

- MERN STACK
- DevOps
- Java & OOPs
- SQL

Experience

Wyreflow Technologies

Full Stack Developer Intern | Onsite

| June 2025 - Present

Built and maintained features for CRTD Technologies using MERN Stack and DevOps. Used Linux and cloud platforms (AWS EC2, S3 and Azure PEM) for hosting, monitoring, and scaling the application. Participated in code reviews and debugging sessions to ensure high-quality code and performance optimization.

Projects

Title: CRTD Technologies.

Project Link: <https://crttd.in/>

Technology: -MERN Stack (MongoDB, Express.js, React.js, Node.js), DevOps, AI/ML, Data Analytics

Description: CRTD Technologies is an advanced digital platform aimed at providing innovative solutions across multiple domains. The platform integrates full-stack development with DevOps practices for continuous deployment, AI/ML for intelligent features, and Data Analytics for actionable insights. It showcases real-time data processing, scalable architecture, and modern UI/UX.

Title: Job-Hunt

Technology: MERN Stack, n8n AI Agent, WebSocket.

Description: Job Hunt is a modern, full-featured job portal designed to connect job seekers with potential employers efficiently and seamlessly. The platform supports user registration, job postings, resume uploads, company profiles, and job application tracking.

Title: Farming System.

Technology: MERN Stack, Google Maps.

Description: Our proposed solution is a contract farming system that ensures stable market access. It enables farmers to enter agreements with buyers to produce and supply crops under specific conditions.

Certifications & Trainings

- Earned the **Introduction to cyber-Security** Certification from **Cisco**.
- Gained **AI Builders Lab** certificate from **Google**.
- Obtained a **Health-Hackathon** certification from Johns Hopkins University (USA) & VIT.
- Achieved **CCNA** certificate from CISCO.
- Earned the **GitHub Pull Shark** badge for actively contributing to open-source projects through pull requests.

Co-Curricular Activities

- Participated in SISTec Innovation **Hackathon** 2024.
- Participated in **VIT Health-Hack**.
- Won **1st place** in the online gaming (Free Fire) Competition at **Euphoria**, the college fest.

Interpersonal Skills

- Punctual.
- Time Management.
- Teamwork & Leadership.
